Male menopause is a lot more  
fun than female menopause.

With female menopause  
you gain weight and get hot  
flashes. With male menopause,  
you get to date young girls  
and drive motorcycles.

*-Rita Rudner*

Many women are afraid of their first mammogram, but there is no need to worry. By taking a few minutes each day for a week preceding the exam and doing the following practice exercises, you will be totally prepared, and best of all, you can do this simple practice exercise right in your home:

Visit your garage at 3 a.m. when the temperature of the cement floor is just perfect. Take off all your clothes and lie comfortably on the floor with one breast wedged under the rear tire of the car. Ask a friend to slowly back the car up until your breast is sufficiently flattened and chilled. Turn over and repeat for the other breast.

My gynecologist laughed when I told him  
how bitchy I get during my period.

**So I shot him.**
