

For Alexander, Ethan, Oliver & Emilio

The Solar System with / El sistema solar con

Ellen

Take a trip around our solar system with Ellen Ochoa, the first Latina to travel into space. This book will introduce little ones to the sun, moon, and planets in English and Spanish.

www.LittleLibros.com
Lil Libros®

The story portrayed in this book is a work of fiction and is only used to create a colorful introduction to the solar system. Dr. Ellen Ochoa did not visit the planets or the Sun during her historical missions to outer space. With the exception of the Earth's moon, no human has yet stepped foot on other planets or moons. We are hoping this book inspires your little one to the best first!

I've traveled far
Beyond our clouds.
To a faraway place
Called Outer space.

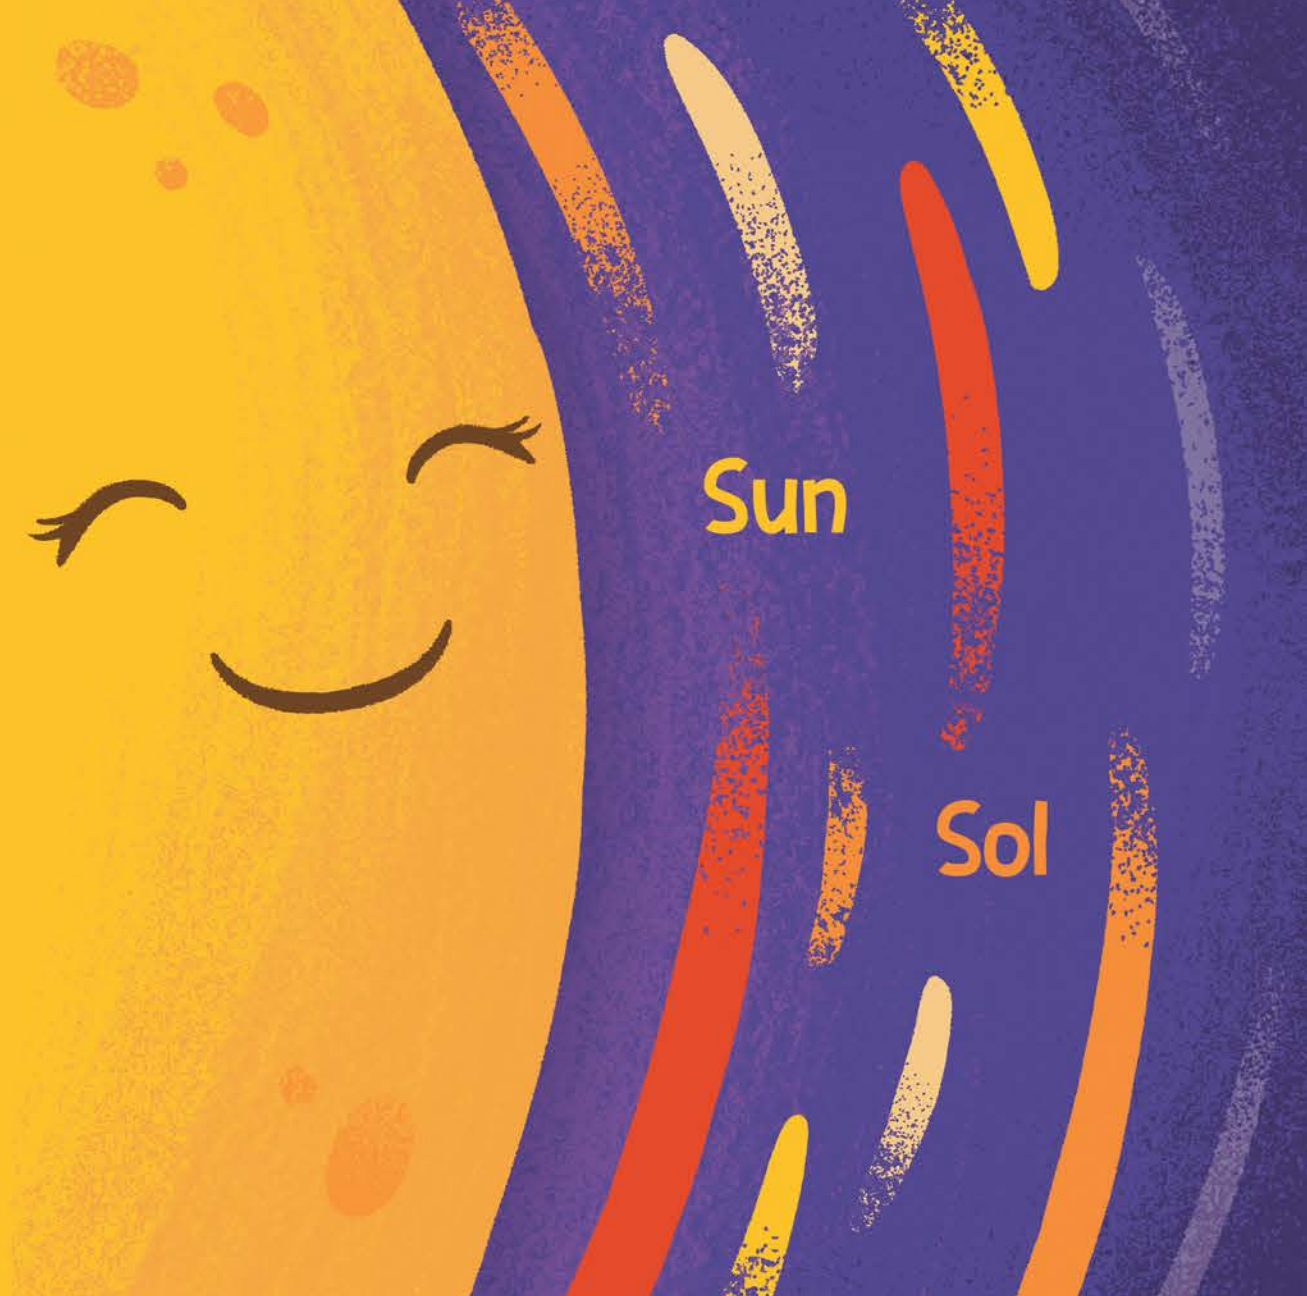

Viajé lejos
Más allá de las nubes
A un lugar llamado el espacio
Donde todo se mueve despacio

**I saw the sun light up the sky
And met its friends as I flew by.**

**Miré como el sol ilumina el cielo.
Me encontré con sus amigos muy risueños.**

**Big red Mars, I took a peek
With its big red mountain, it's quite unique.**

**El planeta Marte, rojo y grande
Con sus enormes montañas, es único y brillante**
