Origami AIRPLANES

Origami AIRPLANES

The spectacular paper airplanes in *Origami Airplanes* are so easy and fun to make, even first-time flyers will have a plane soaring through the air in no time! All the designs were chosen because they feature a special detail of paper plane design, such as being very wide or narrow, great for flying outdoors, a strange shape, having an unusual launch or being acrobatic. *Origami Airplanes* includes 40 sheets of origami paper as well as tips and tricks for making all your planes fly really . . . REALLY . . . well!

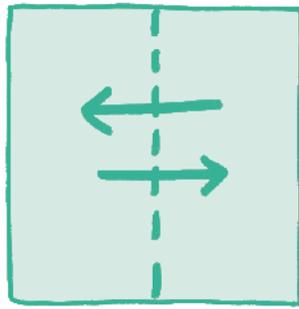

INCLUDES
40 sheets
of origami paper!

1 Color side up, fold in half down the middle. Unfold.

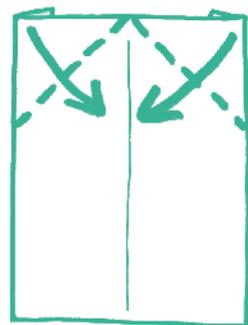

2 Mark the quarter points along the top edge by bringing the top corners to the top center line and pinching the edge.

3 Fold the left and right edges to the center line...

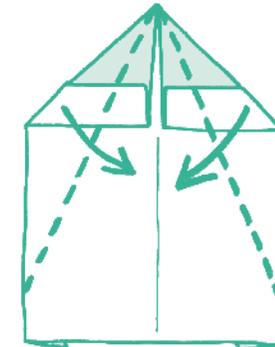

4 ... like this. Turn over.

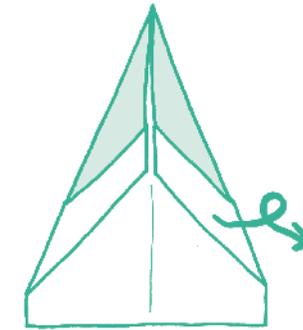

5 Fold the top corners to the center line.

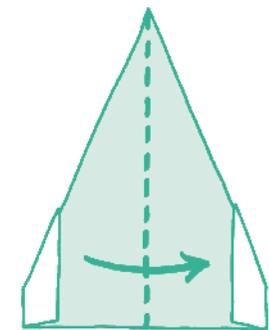

D'Artagnon

6 Fold in the sloping edges to the center line...

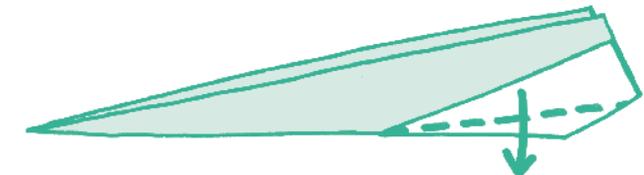

7 ... like this. Turn over again.

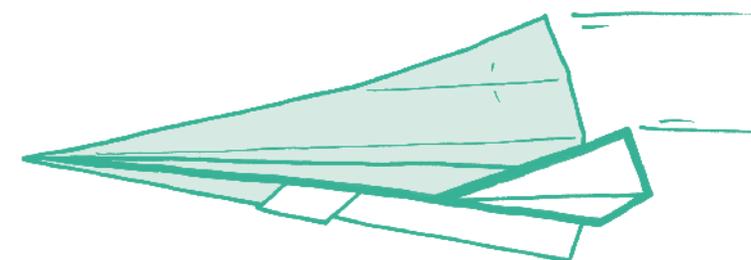

8 Fold the paper in half.

9 Fold the sloping edge to the bottom edge, making a sharp corner at the left. Repeat behind.

10 Fold the loose corner upwards at 90 degrees. Repeat behind.

Flying Tips

Check that the small vertical fins are upright and the wings are horizontal. Throw upwards with some force. Carefully trimmed, it will fly a long way.
