THE FIFTH WALL 220

Lively objects that reflect and ricochet light around the room create vibrancy, which elevates your living space. Find ways to capture the sun using found objects, large or small.

OPPOSITE, CLOCKWISE FROM TOP LEFT: LED lighting edges pencil-thin rings on this fixture, which seems to hover in midair. A Buddha graces the coffee table. Nailhead trim makes an artful statement. A gilt trunk doubles as an end table and storage. OVERLEAF: Fifteen-foot-high ceilings give this family room and open kitchen an airy feel.

ABOVE, CLOCKWISE FROM TOP LEFT: Custom faux bois cut velvet dining chairs. A chandelier with all the effervescence of champagne bubbles. A huge slab of black walnut makes for an artful dining table. Even table bases should be eye-catching. OPPOSITE: The open bar imparts a festive feeling.

ABOVE: My personal home office. OPPOSITE: A self-portrait of my grandmother hangs over an antique Victorian sofa, which I had painted a fiery orange and reupholstered in cut velvet. The table is from a trip to Egypt. I brought the brass lamp in the background home from a trip to Morocco. OVERLEAF: I repurposed the hand-painted screen I made for the Beverly Hills Greystone Mansion Design Showcase house to be used as a fanciful headboard.
