Take in John Muir's detailed observations of the sights, scents, sounds, and textures of Yosemite, Yellowstone, and forest reservations of the West. Be reminded (as Muir sagely puts), "Wildness is a necessity; and that mountain parks and reservations are useful not only as fountains of timber and irrigating rivers, but as fountains of life."

JOHN MUIR was a Scottish-born American naturalist, author, wilderness preservation advocate, and founder of the Sierra Club. His letters, essays, and books have been read by millions.
